DETAILED ACTION

1. This action is responsive to the Appeal Brief filed on April 26, 2006.

Response to Arguments

2. Applicant's arguments, see Appeal Brief, pages 17 and 18, filed April 26, 2006, with respect to claims 2, 27 and 30 have been fully considered and are persuasive. In a telephonic interview on May 24, 2006, with Gary D. Yacura, applicants agreed to an Examiner's amendment adding limitations from the dependent claims 2, 27 and 30 in to the independent claims 1, 18 and 28, therefore placing the application in to condition for allowance.

Allowable Subject Matter

3. Claims 1, 2, 4-8, 10-12, 14, 15, 18, 20-24, 26, 28, 29 and 31-35 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As to claims 1, 18 and 28, none of the prior art teach or fairly suggests the limitation of "growing said region includes iteratively growing said region and the number of iterations performed is responsive to the user interface, such that manipulation of the user interface selectively determines the extent of the growth of said region", in combination with the other limitations of the claims. The prior art of Hartley, already of record, discloses determining a seed point and growing a region in three-dimensions about said seed point, but does not teach or fairly suggest iteratively growing said region and the number of iterations performed is

responsive to the user interface such that manipulation of the user interface selectively determines the extent of the growth of said region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
